

LOW PRESSURE COMBINED NOZZLE

Low Pressure Combined Nozzle is a light-weight nozzle with straight stream and 120° wide fog. Made from high strength aluminum with hard anodized treatment. A simple shut-off lever, online flush function, pistol grip handle, easily replaceable spinning teeth ring and protective rubber bumper make this product the perfect combination of rugged, flexibility and sophisticated features.

Features :-

- ❖ Flow : minimum 400 LPM @ 6 bar.
- ❖ Shut off ball valve for nozzle operation.
- ❖ Jet-spray mode by twist rotation of bumper. Combination of Jet & spray possible.
- ❖ Spray up to 120°
- ❖ Abrasion and corrosion resistant.
- ❖ Flush without shutting off.
- ❖ Anti-slip finger lock rubber moulded pistol grip.
- ❖ Standard inlet: 1.1/2" BSP NH (F) Swivel.
- ❖ Optional inlet: Storz-45

Performance @ 6bar
